

PETRONAS AND CUB PRIX RENEWS 18-YEAR PARTNERSHIP

As the PETRONAS Malaysian Cub Prix Championship flags off its 28th season this weekend, the national motorsports series has announced that it will be extending its partnership with title sponsor, PETRONAS.

The partnership between PETRONAS and the Malaysian Cub Prix Championship sets the domestic record as one of the longest running partnerships in the Malaysian sporting arena, spanning a whopping 18 years and counting.

PETRONAS came on board as the title sponsor of the Malaysian Cub Prix Championship in 2003. The impact of the partnership was immediately felt. The credibility that PETRONAS brought to the series made it possible for the minimum age to be lowered. Also, the long-term commitment from PETRONAS allowed for systematic and structured planning in the complex topic of rider development.

“Like any other sports, national championships play an important role in talent development. Academies, while good for mentoring young riders, can only do so much. But there is nothing like pitting rider against rider to bring out the best of their talents. The role of national championships grows in importance the longer international events are shuttered by border restrictions. These championships are the ones who keep the sport alive,” said Ron Hogg, Director of Safe Aim Mutual Sdn Bhd, the race promoters of the Malaysian Cub Prix Championship.

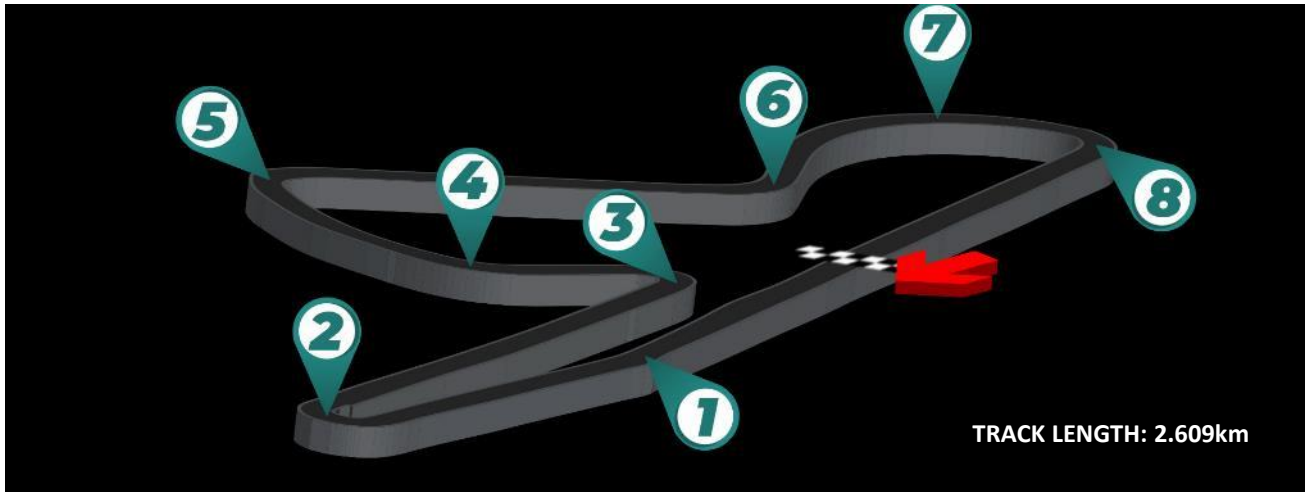

“For that, I would like to thank PETRONAS for their trust and support over the years that had made it possible for us to grow the Malaysian motorsports industry to what it is today.”

The PETRONAS Malaysian Cub Prix Championship was one of the few sporting events to complete their season in the challenging year that was 2020. As the motorsports industry contemplates a new-normal without spectators, calls for more motorsports facilities are growing stringent.

“Last year, in compliance with the no-spectator rule, we were only able to hold races in three race tracks. They were the Sepang International Circuit, the Tangkak Racing Track, and the Terengganu Motorsports Track. Three national-grade tracks are not enough for the needs of the industry. There is an urgent need for more of these facilities, ideally one in each state. We are hoping that the government will hear our pleas for more usable race tracks which will benefit not only motorcycle racing but also the car racing industry,” Ron concluded.
